

SUMMARY

Results-driven Full-Stack Web Developer with a strong foundation in both front-end and back-end development. Proficient in Java, JavaScript, HTML, CSS, React, Redux, Jest, and Bootstrap. Skilled in clean, semantic code and utilizing tools such as Webpack, VsCode, Git, and GitHub. Experienced in Agile methodologies and fostering effective collaboration and teamwork. Innately curious and quick learner, adaptable, resilient, and collaborative. Passionate about creating exceptional user experiences. Eager to contribute technical expertise and adaptability to a dynamic and innovative team.

SKILLS

Technical: JavaScript, HTML5, CSS3, Bootstrap, React.js, Redux, SQL, MySQL, Ruby, Ruby on Rails, PostgreSQL, Git, GitHub, Webpack, Jest, VsCode, Database design, Database diagrams, API Creation, Deploying, and Serving APIs and Tests

Professional: Agile Methodologies, Remote Pair-Programming, Teamwork, Mentoring, Results-driven mindset, Innately curious and quick learner, Adaptable and resilient, Collaborative team player, Effective communication, Problem-solving skills, Attention to detail

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer Student

Remote

Sept 2022 – Present

Mastered intermediate topics in full-stack development (including Js, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair-programming.

- **Weather-React-App: (frontend)**

Weather Hub is an application that provides current weather info on different countries around the world. [Here](#)

- Developed user interface with React, and used an API as data resource
- Allow user to filter countries according their continent and see that country current weather by click on flag

- **Budget_tracker : (frontend , backend)**

The Budget Tracker app is a mobile web application where you can manage your budget: you have a list of transactions associated with a category, so that you can see how much money you spent and on what. [Here](#)

- Developed frontend and backend with ruby on rails use postgresql for database
- Add device for user authentication use bootstrap to make it responsive

MICROVERSE

Mentor (Volunteer)

Remote

Oct 2022 – Present

- Mentoring junior web developers, providing technical support through code reviews to over 10 students per week and using slack and zoom to mentor.
- Proposing improvements to code organization to significantly enhance code quality and overall performance by 95% in accordance with project requirements.

EDUCATION

MICROVERSE

Sept 2022 – Jul 2023

Remote Full Stack Web Development Program, Full Time

- Student at Microverse full-stack development learning program, showcasing proficiency in Html, CSS, JavaScript, React, Ruby, and Ruby on Rails.
- Developing Multiple full-stack projects independently and through pair-programming, demonstrating strong problem-solving and coding skills.
- Successfully mastered intermediate topics in full-stack development, including algorithms, data structures, and Git.
- Developing skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

KABUL UNIVERSITY, AFGHANISTAN

Aug 2017 – Jan 2022

Bachelor in Software Engineering

- Received academic recognition for outstanding performance in software engineering coursework
